PROFILE SUMMARY

I am a passionate and motivated web development fresher, eager to apply my MERN stack skills to create user-friendly websites and applications. I want to contribute to exciting projects, learn new technologies, and grow as a developer.

WORK EXPERIENCE

Engineer Sahab Education
Intern in Web Development   NOV-2024 TO MAY-2025

- I am currently doing an internship as a MERN Stack Developer, learning how to build websites using HTML, CSS, and JavaScript. I work on both the frontend and backend, helping to create and improve web applications. This internship is giving me hands-on experience in coding, problem-solving, and working with a team.

- I created some templates using HTML, CSS and java Script like animations, shadows and other properties.

PROJECT   HTML, CSS and JavaScript

Seat Booking Application

- Designed and developed a user-friendly web application for seat booking with clean and responsive layouts.

- Implemented an interactive interface to allow users to select and book seats visually.

Responsive Website   HTML, CSS and JavaScript

- Designed and developed a fully responsive website with an interactive user interface. Implemented dynamic elements using JavaScript for enhanced user experience.
- Optimized for mobile and desktop views using modern CSS techniques. Ensured cross-browser compatibility and smooth navigation.
